PROFESSIONAL SUMMARY

With over 6 years of experience in development and design, I specialize in building enterprise and client-focused software and web solutions, including scalable SaaS (Software as a Service) applications. My expertise lies in crafting user-centric interfaces and enhancing user experiences aligned with business goals. I bring a strong blend of creativity, conceptual development, and design thinking—delivering impactful solutions across multiple platforms and media.

SKILLS

Languages: PHP, JavaScript (ES6), HTML5, CSS3, Node.js, Dart
Frameworks & Libraries: Laravel, Vue.js, Nuxt.js, Flutter, Express.js
Databases: MySQL, Firebase, MongoDB

Core Strengths:

- Strong problem-solving and debugging abilities
- Excellent team collaboration and communication skills
- Deep understanding of scalable SaaS architecture (Single & Multi-Tenant)
- Expert in client requirements analysis and project execution
- Proficient in modern RESTful API and JSON-based architecture
- Ability to build and manage subscription billing and payment integration (e.g., Stripe)
- Familiar with cloud deployments and scaling on platforms like DigitalOcean and Vercel
- UI/UX design proficiency with expert-level Figma skills

Everything listed here is based on hands-on experience—not just buzzwords.
